PRESS RELEASE – REGULATED INFORMATION – INSIDE INFORMATION

Ekopak appoints interim CEO

Deinze, 3 augustus 2026, 08.00u CEST

Ekopak NV (EURONEXT: EKOP) announces that Wim Messiaen, through his management company CAMAT BV, will be appointed as interim CEO as of Monday 3 August 2026, until the end of this year.

Wim Messiaen has more than 30 years of international industrial leadership experience. He led large corporations such as Unilin and VPK Group's Corrugated Packaging division through periods of structural transformation.

Further details will follow in due course. The previously announced search for a permanent successor by the Board of Directors continues.

About Ekopak Sustainable Water

Ekopak is a Belgian company specialized in solutions for industrial water treatment and wastewater treatment. The group's solutions enable industrial customers to reduce their water consumption in a sustainable, reliable and cost-effective way and to purify their wastewater. Ekopak also enables its customers to disconnect from the regular water network and to adopt circular water use. In doing so, Ekopak focuses on optimizing water use through modular water treatment units that convert grid-independent water sources such as rain, surface and/or wastewater into purer water that can be used and reused in the customer's industrial processes.

Ekopak offers its solutions worldwide and operates from offices in Belgium, France, the Netherlands, Morocco, the Philippines, Thailand, Mexico, Singapore, India and the US.

All Ekopak shares are listed on Euronext Brussels (ticker EKOP).
